| AIE-2025-002 | 10/02/2025 | Business | <p>(1) Were there any other farmed salmon escapes from finfish farm facilities in Irish waters reported to DAFM or Marine Institute from the 1st of January 2024 to the present day.</p> <p>(2) If the answer to the above question is yes, please supply details, such as when the escapes occurred, how many farmed fish escaped, size of fish that escaped and how many fish were in the cages when they escaped?</p> <p>(3) Please supply me with any investigation reports that were carried out by DAMF or the Marine Institute into the Killary Harbour escape on 11th August 2024.</p> <p>(4) How many Killary Harbour salmon farm escapees were recaptured by Mannin Bay salmon farm operators, their agents or by DAFM or agents after the escape?</p> <p>(5) If the answer to the above question is none, please explain the reasons why none were recaptured?</p> <p>(6) As escaped farmed salmon have been regularly captured by anglers over the years on Irish rivers that nobody seems to know where they escaped from as the salmon farmers are not reporting all escapes from their facilities. Will the DAMF make it mandatory that all farmed salmon smolts be wire tagged before being transferred to sea cages?</p> | 03/02/2025 | Granted | |
| AIE-2025-003 | 14/02/2025 | Business | Please supply a LIST OF RESEARCH SURVEYS relevant to Wind Industry including RESEARCH DOCUMENTS | 19/02/2025 | Refused | Insufficient Particulars Article 7(8) |
